

## Hiring a Fontys IT student,

# What makes our students an excellent student and how can they contribute to your company?

Fontys University of applied Science, School of IT has been accredited by the Dutch government with an Excellence as the only IT University of Applied Science in the Netherlands.

We are located in the south of The Netherlands in a very high tech environment with partners in education such as Philips, ASML, Paccard. Fontys Our region has even won the Award of 'Smartest Region in the World' in 2011.

### **Competencies**

On IT competencies our students learn to analyze, advice, develop, realize and control the total life cycle of IT. All our students learn to program with an approach that is required for their business skills.

Our students differ from IT & Technology, IT & Software Engineering, IT & Business and IT & Media Design. They can specialize in a variety of innovative programs such as: Serious Games, Lifestyle, Cyber Crime, Big Data, Business Intelligence etc.

### **Soft Skills**

What could make our students of special interest for your company is their distinctive soft skills. Our students are used to work in intercultural and multidisciplinary groups. They are very cooperative and used to work in project groups on real assignments for Dutch companies throughout their full Bachelor Program.

They come with an open mind and are trained to be inquisitorial and thorough. They are used to take initiative and don't hesitate to ask a lot of questions until they are fully satisfied with the quality of the result. They have outstanding communication and entrepreneurial skills.
