DATA & AI

INTERNATIONAL WEEK
@FONTYS ICT

Boost your skills in data & AI projects together with students from across Europe

Join the Blended Intensive Programme (BIP) Data & AI – an intensive international week in Eindhoven where you'll collaborate with partner universities on a real-world challenge in Data & Artificial Intelligence.

You'll participate in inspiring workshops, guest lectures, social activities, and practical assignments.

The goal? International collaboration, creative problem-solving, and showcasing your entrepreneurial mindset.

This Erasmus+ program combines virtual preparation with an in-person week from March 23–27, 2026, including lunches, excursions, and a farewell dinner.
